

# Indoor Sign Display Stand 2 - QUICK INSTRUCTIONS

1. Start with base and side poles. Make sure the hole with dent on the base should be outside.

2. Attach base to 2 side poles by long screws. Make sure 2 holes on each side pole facing each other towards the inside.

3. Next step is to attach the side poles and frame.

4. Before attaching the frame and poles, make sure the insert part of frame should be top.

4. Insert short screws from inside of frame to each hole of the side poles. Flip the frame and repeat other side.

5. Insert graphic from top of the frame.
